# Explorations

## Character One

Nathan

The protagonist

Shy and timid

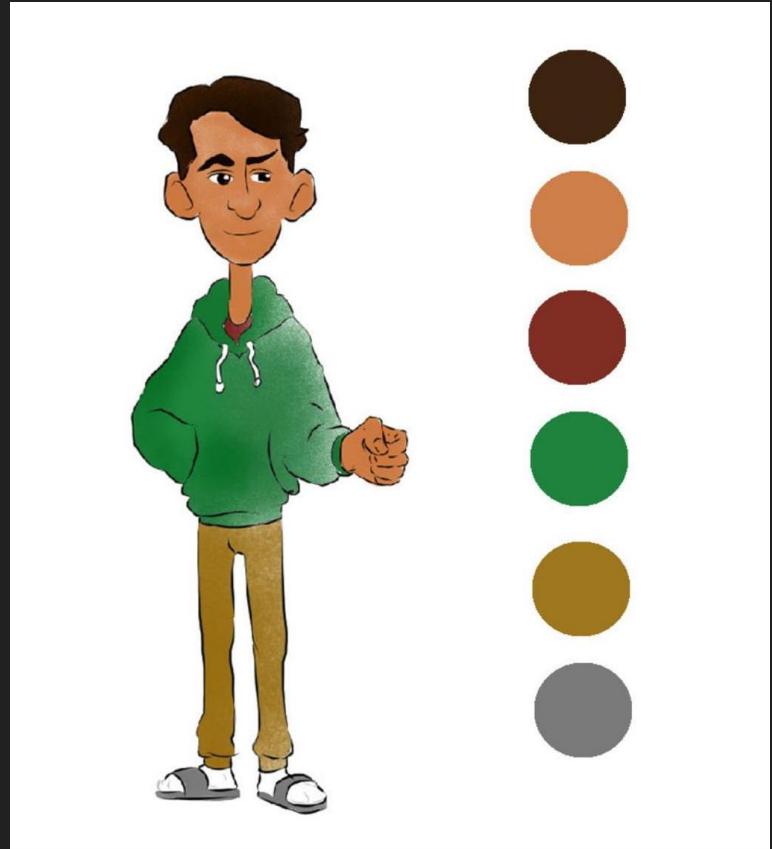

## Character Two

Rohan

Side character

Friendly and open minded

## Character Three

Pravin

Side character

Orthodox and rigid

## Sound

We may not need an orchestra to create the mood, but considering a scene a **subtle music** could work wonders. Considering the time period of the production, I decided to go for only **guitar music**. The place where I grew up always had a strong influence of guitar music and fingerstyle guitar is my personal favorite.

The film!
