- ▶ In-depth study

Dyslexia

There is an acute difficulty in decoding the written word. People suffering from Dyslexia are also often unable to comprehend what they just read.

Dyslexia is a neurological disorder, often with genetic origins.

Findings from a research in MIT spearheaded by Gadi Geiger and Jerome Lettvin prove dyslexic people to have better peripheral vision than normal people.

The Short Vowel Rule

Short Vowel Rule: When there is **one** vowel in a word, either at the beginning or between two consonants, it usually has the **short vowel** sound.

1. Short vowel **a** words

ant	pan	wag	jam	cat	bad
ax	ran	flag	and	bat	dad
wax	van	cap	band	hat	has
can	gas	map	hand	pat	mad
fan	bag	nap	sand	rat	sad
man	tag	ham	lamp	sat	glass

2. Short vowel **e** words

egg	bed	test	jet	hen	fell
leg	fed	vest	met	men	hell
sled	red	west	net	pen	sell
step	nest	web	pet	ten	well
tent	rest	get	wet	bell	smell

3. Short vowel **i** words

dig	tip	hid	crib	sit	fill
pig	pin	kid	fist	bit	hill
wig	sin	lid	list	fit	kill
dip	tin	bib	milk	hit	pill
hip	win	fib	silk	pit	will
lip	did	rib	swim	mitt	him

- ▶ Too many options
- ▶ Appearance still confusing
- ▶ No uniformity in characters
- ▶ Confusing typography
- ▶ Better selection of words

Word Selection: Dolch

The Dolch word list is a list of frequently used English words compiled by Edward William Dolch, a major proponent of the "whole-word" method of beginning reading instruction.

Dolch words, or sight words, provide an excellent base for reading at an early age. They are often called sight words because some of them can't be sounded out, and need to be learned by sight.

2nd Grade:

always, around, because, been,
before, best, both, buy, call,
cold, does, don't, fast, first, five,
found, gave, goes, green, its,
made, many, off, or, pull, read,
right, sing, sit, sleep,
tell, their, these, those, upon, us,
use, very, wash, which, why,
wish, work, would, write, your

▶ Second Iteration

Feedback

- ▶ Simpler than before
- ▶ All caps is not recommended
- ▶ Needs stronger visual cues
- ▶ Participatory design

In the normal setting it would be uncommon for one to find words written in all caps, all the time. We have to train kids for what they would face most in life, which is why all learning resources at our center are mostly in small letters.

▶ Third Iteration

In the normal classroom context, teachers generate a word list after reading a story or a chapter from the English text. It is automatically assumed that students can break up the words into smaller components and learn the spelling. But this task is very difficult for the learning disabled, a fact that many teachers simply fail to understand.
