Paranoia

Fear experienced by a person in distress and subsequently its gradual rise leading to paranoia

Fear = basic survival mechanism;
= response to a specific stimulus, such as pain or the threat of danger.

Paranoia = perceived threat to self to the extent of delusion.

The film tries to portray this sense of paranoia in the protagonist in the state of distress and attempts to build upon the fear which furthers itself into paranoia.

Film references

Ward 13 is a claymation short directed by Australian animator Peter Cornwell

Mighty Antlers is an animated short film by Sune Reinhardt, Mikael Illnæs, Michael L. Fonsholt, Jouko Keskitalo.

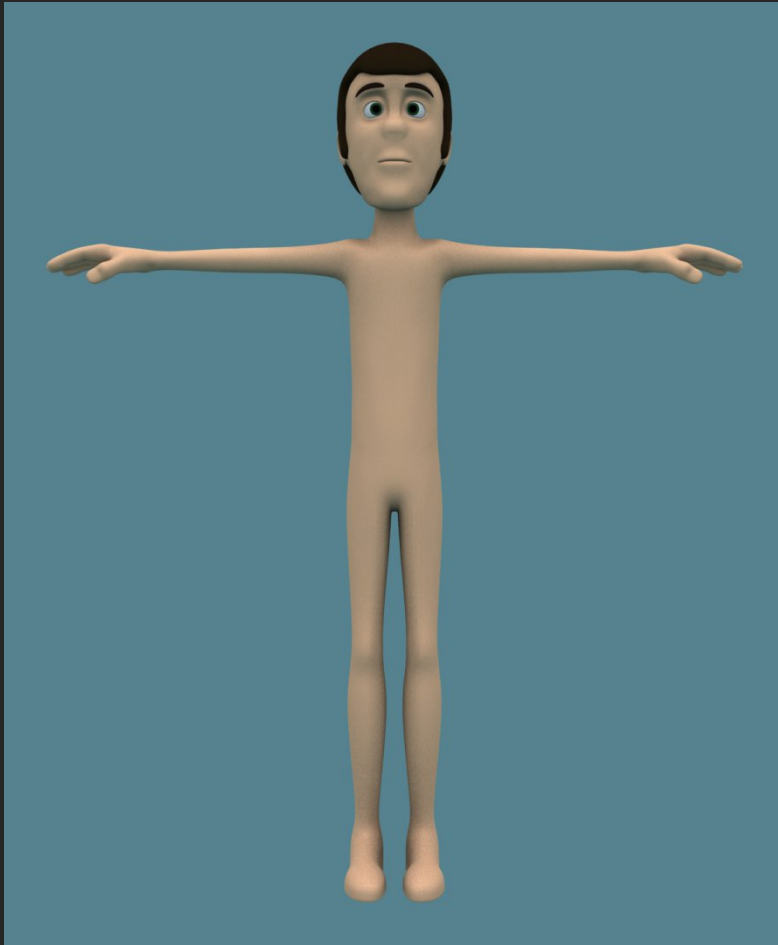

Evolution of the story

Initial idea >> 'Cautionary mail' in IIT campus

Further explorations led to human-animal conflict

Final story >> two guys getting stranded in the forest

The film

'Porl' fully rigged character

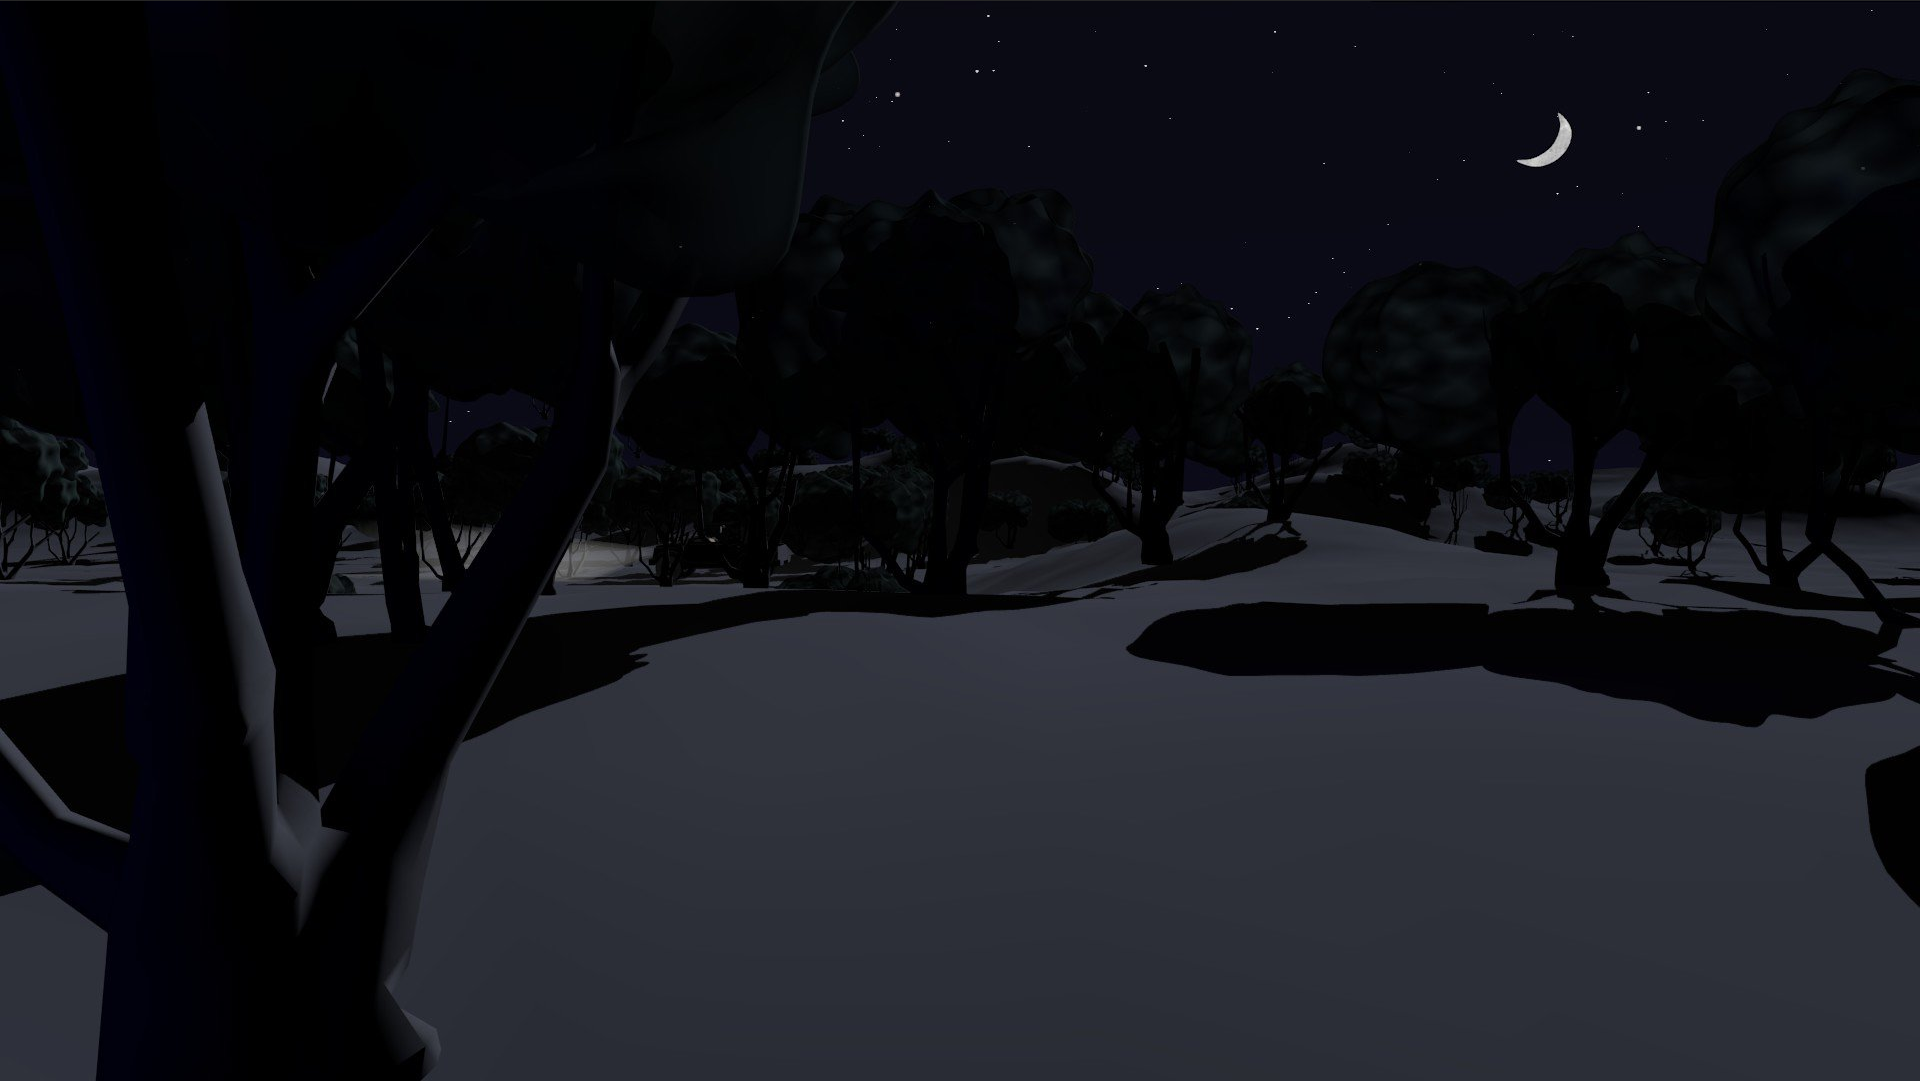

'Porl' fully rigged character >> Avinash

'Cartoon guy' fully rigged character >> Abhas

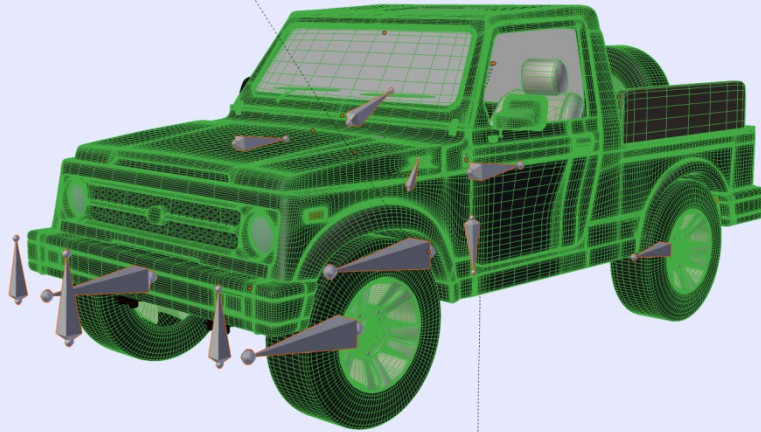

Lighting explorations

<< Gypsy wireframe with the
armature rig

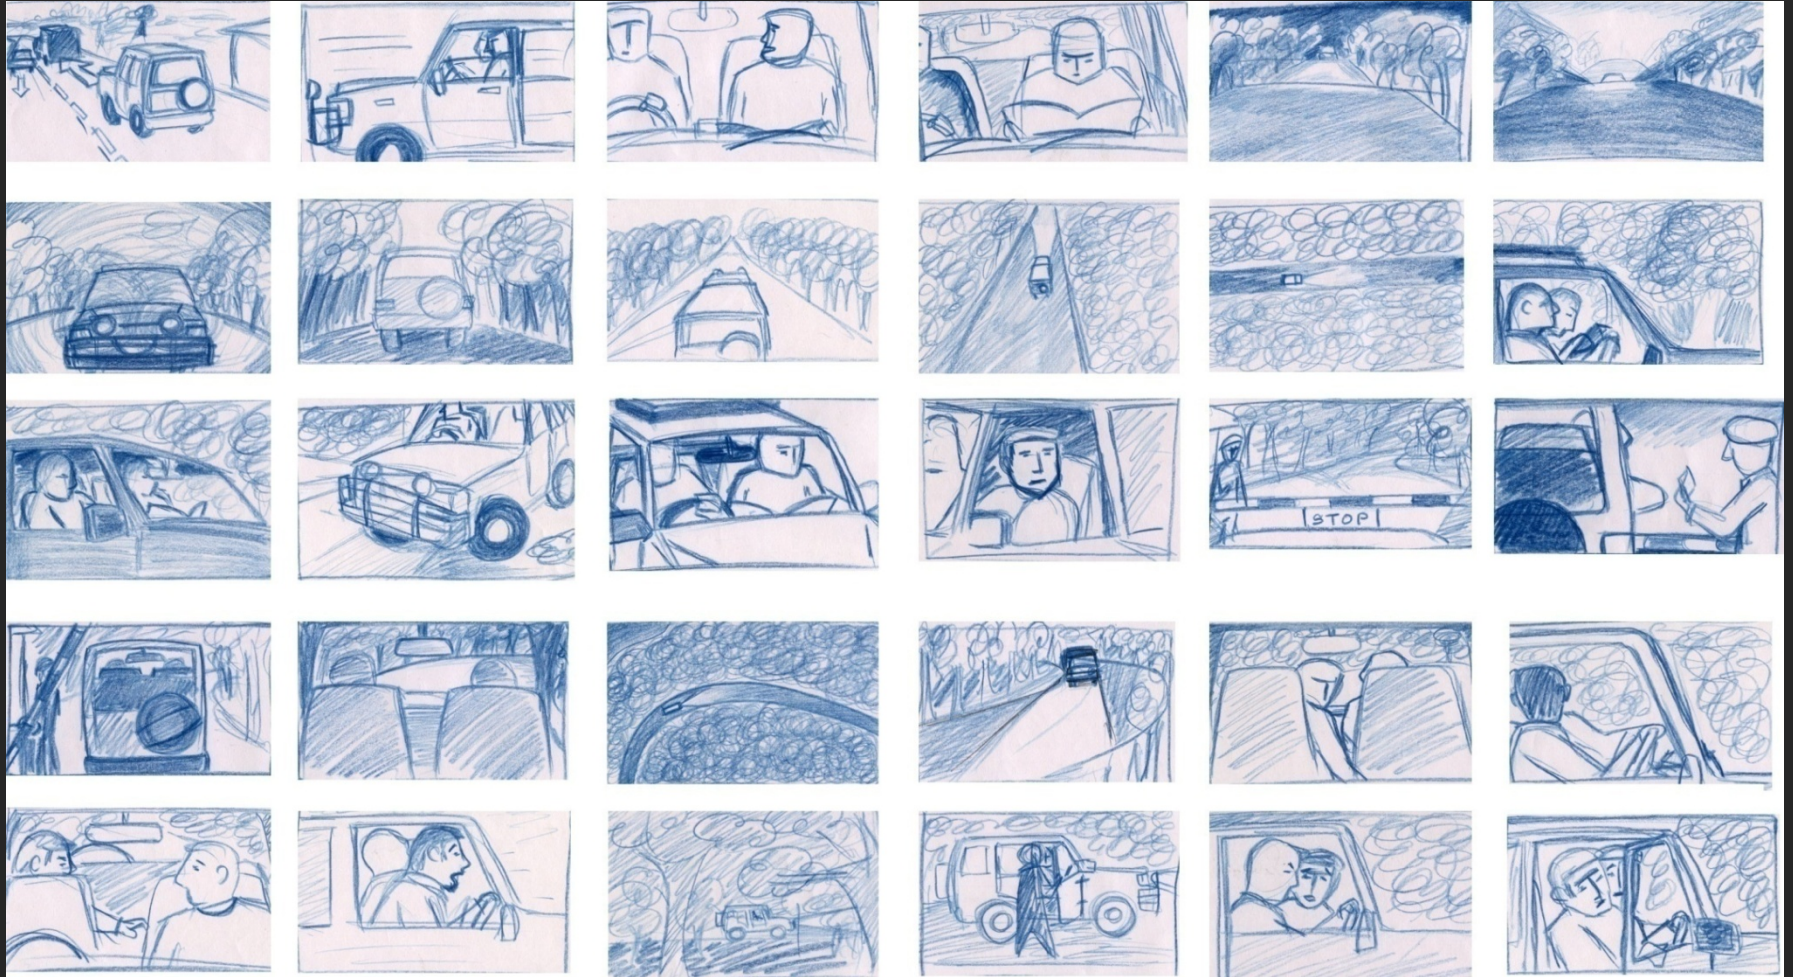

Gypsy with basic colours
without any textures >>

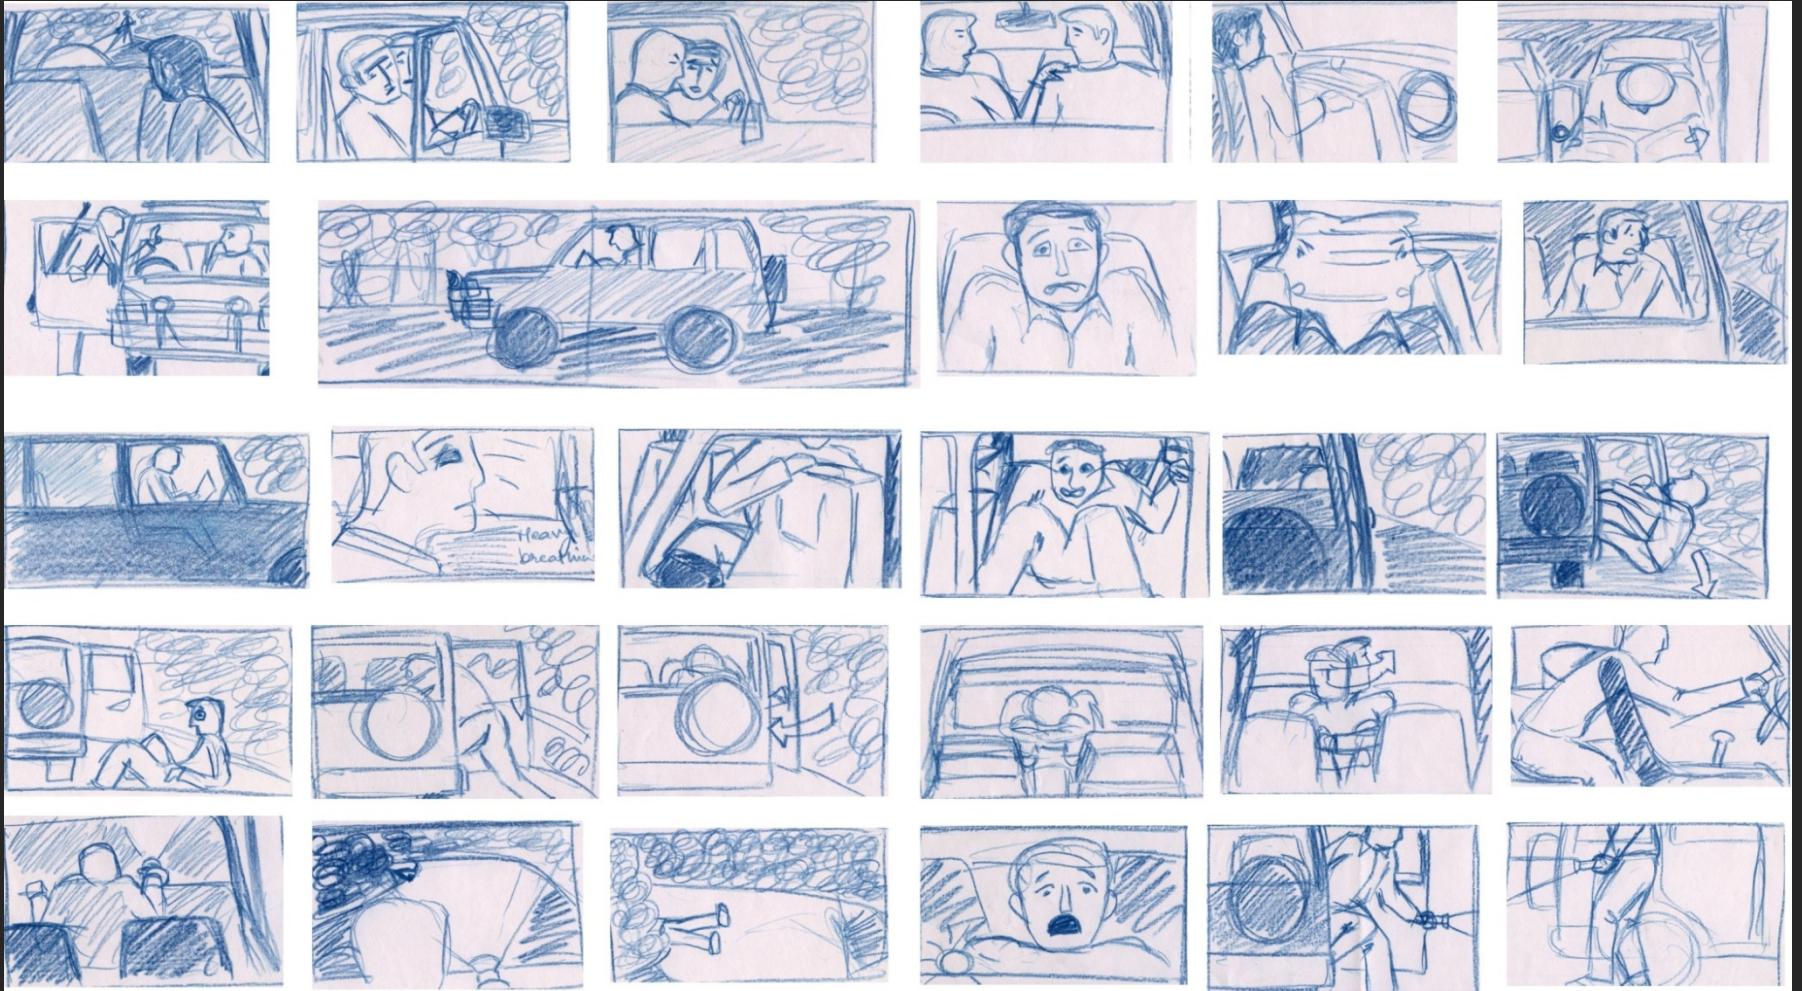

The Gypsy SUV model rendered with daylight settings

Storyboard

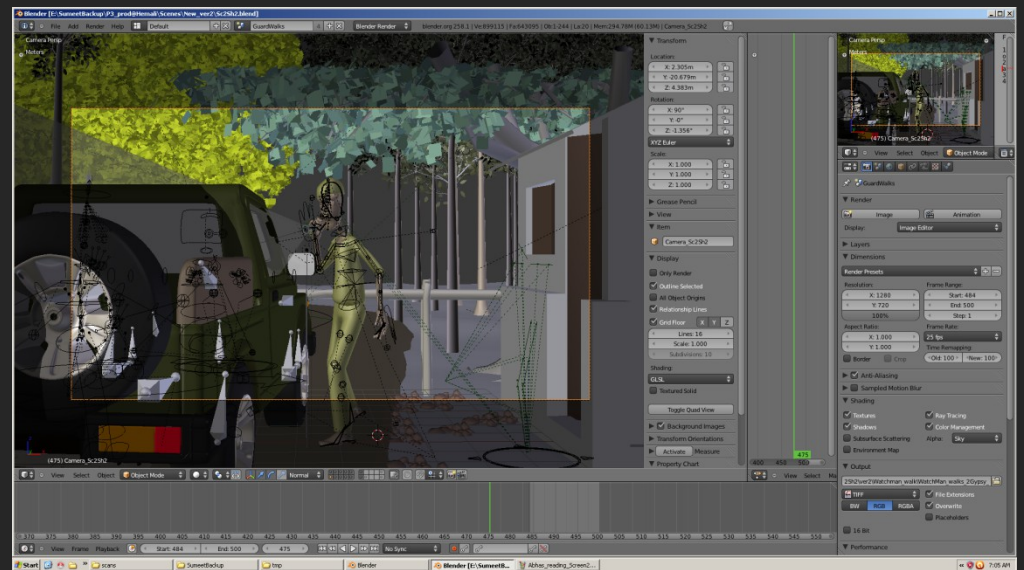

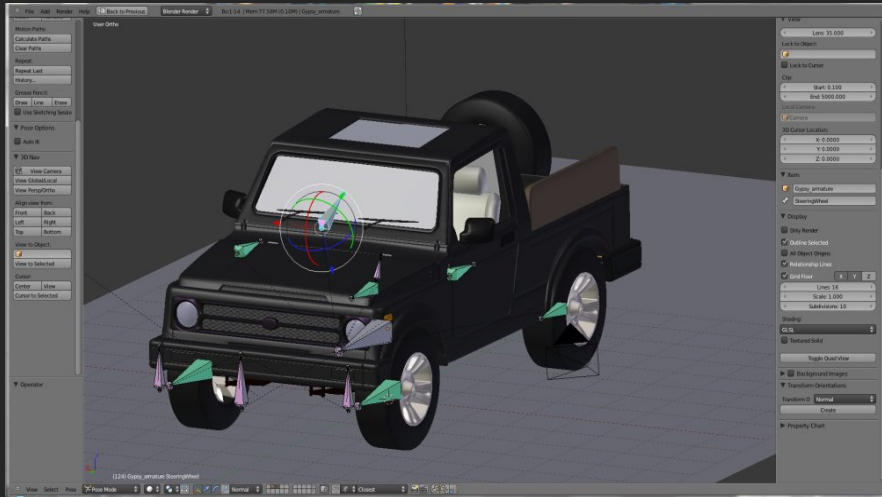

Continued..

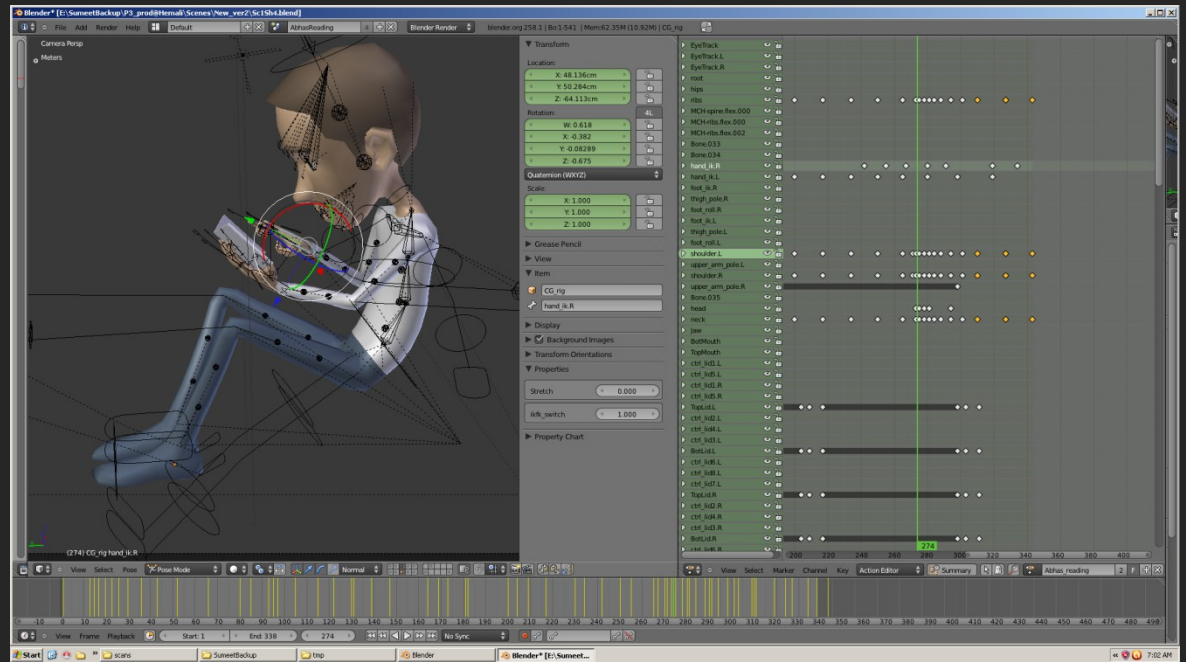

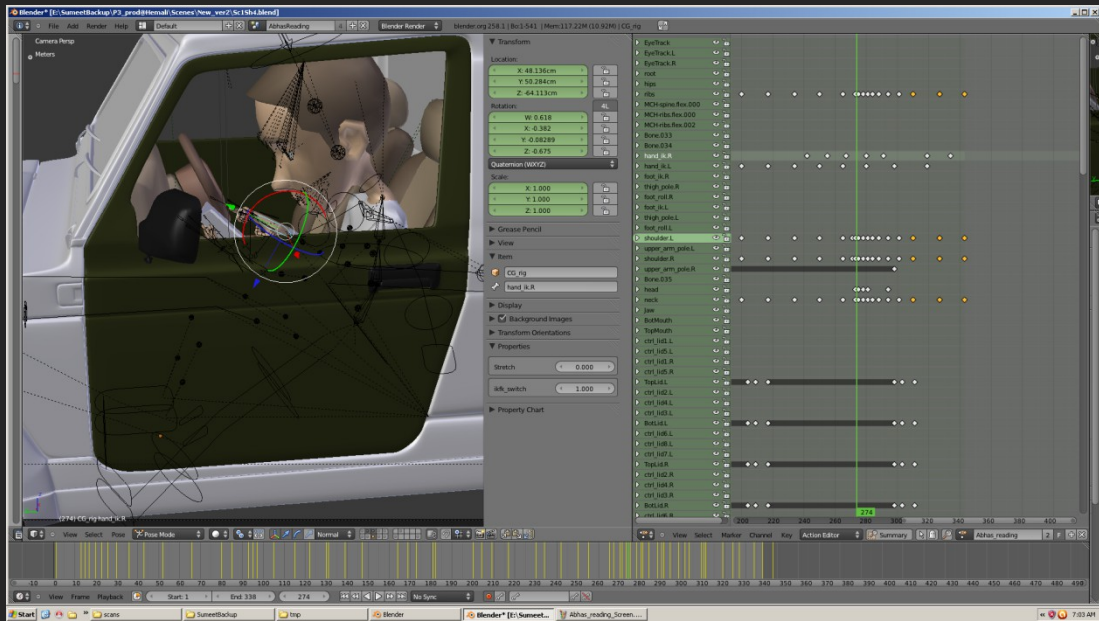

Continued..

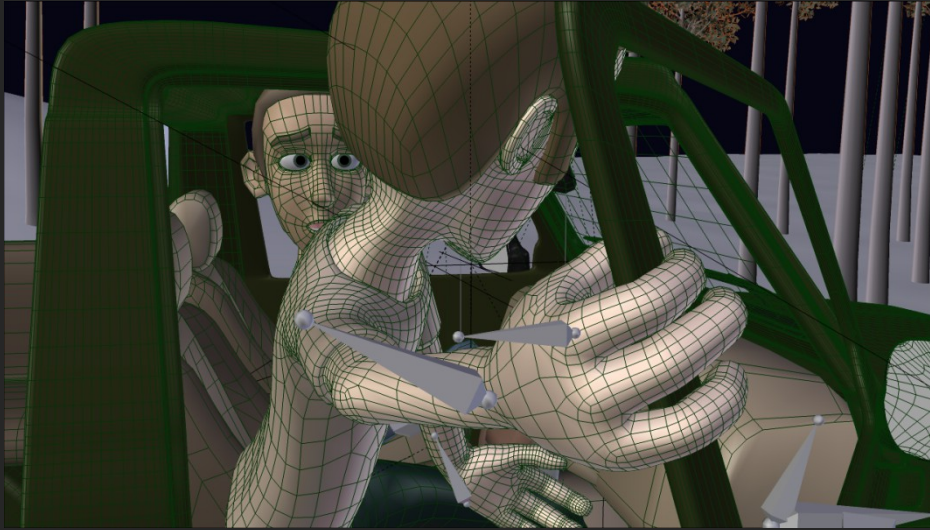

Production

Compositing and lighting

<< Open GL render of the scene
with layout of the characters

Composited render with lighting
and visual effects using nodes >>

Paranoia
