

# Technology based system to support Self Help Groups of Andhra Pradesh

Guide : Prof. Anirudha Joshi

---

Vijay Pavan  
IDC, IITB  
June 2009

## Idea to take the project

### First glimpse of the topic :

May 2008 visit to villages near by Hyderabad along with IDC professors Sri Uday Athavankar and Sri Anirudha Johi

### Tasks :

To assist as translator for interviews in Telugu

To help in and around Hyderabad

## Idea to take the project

### Inspiration :

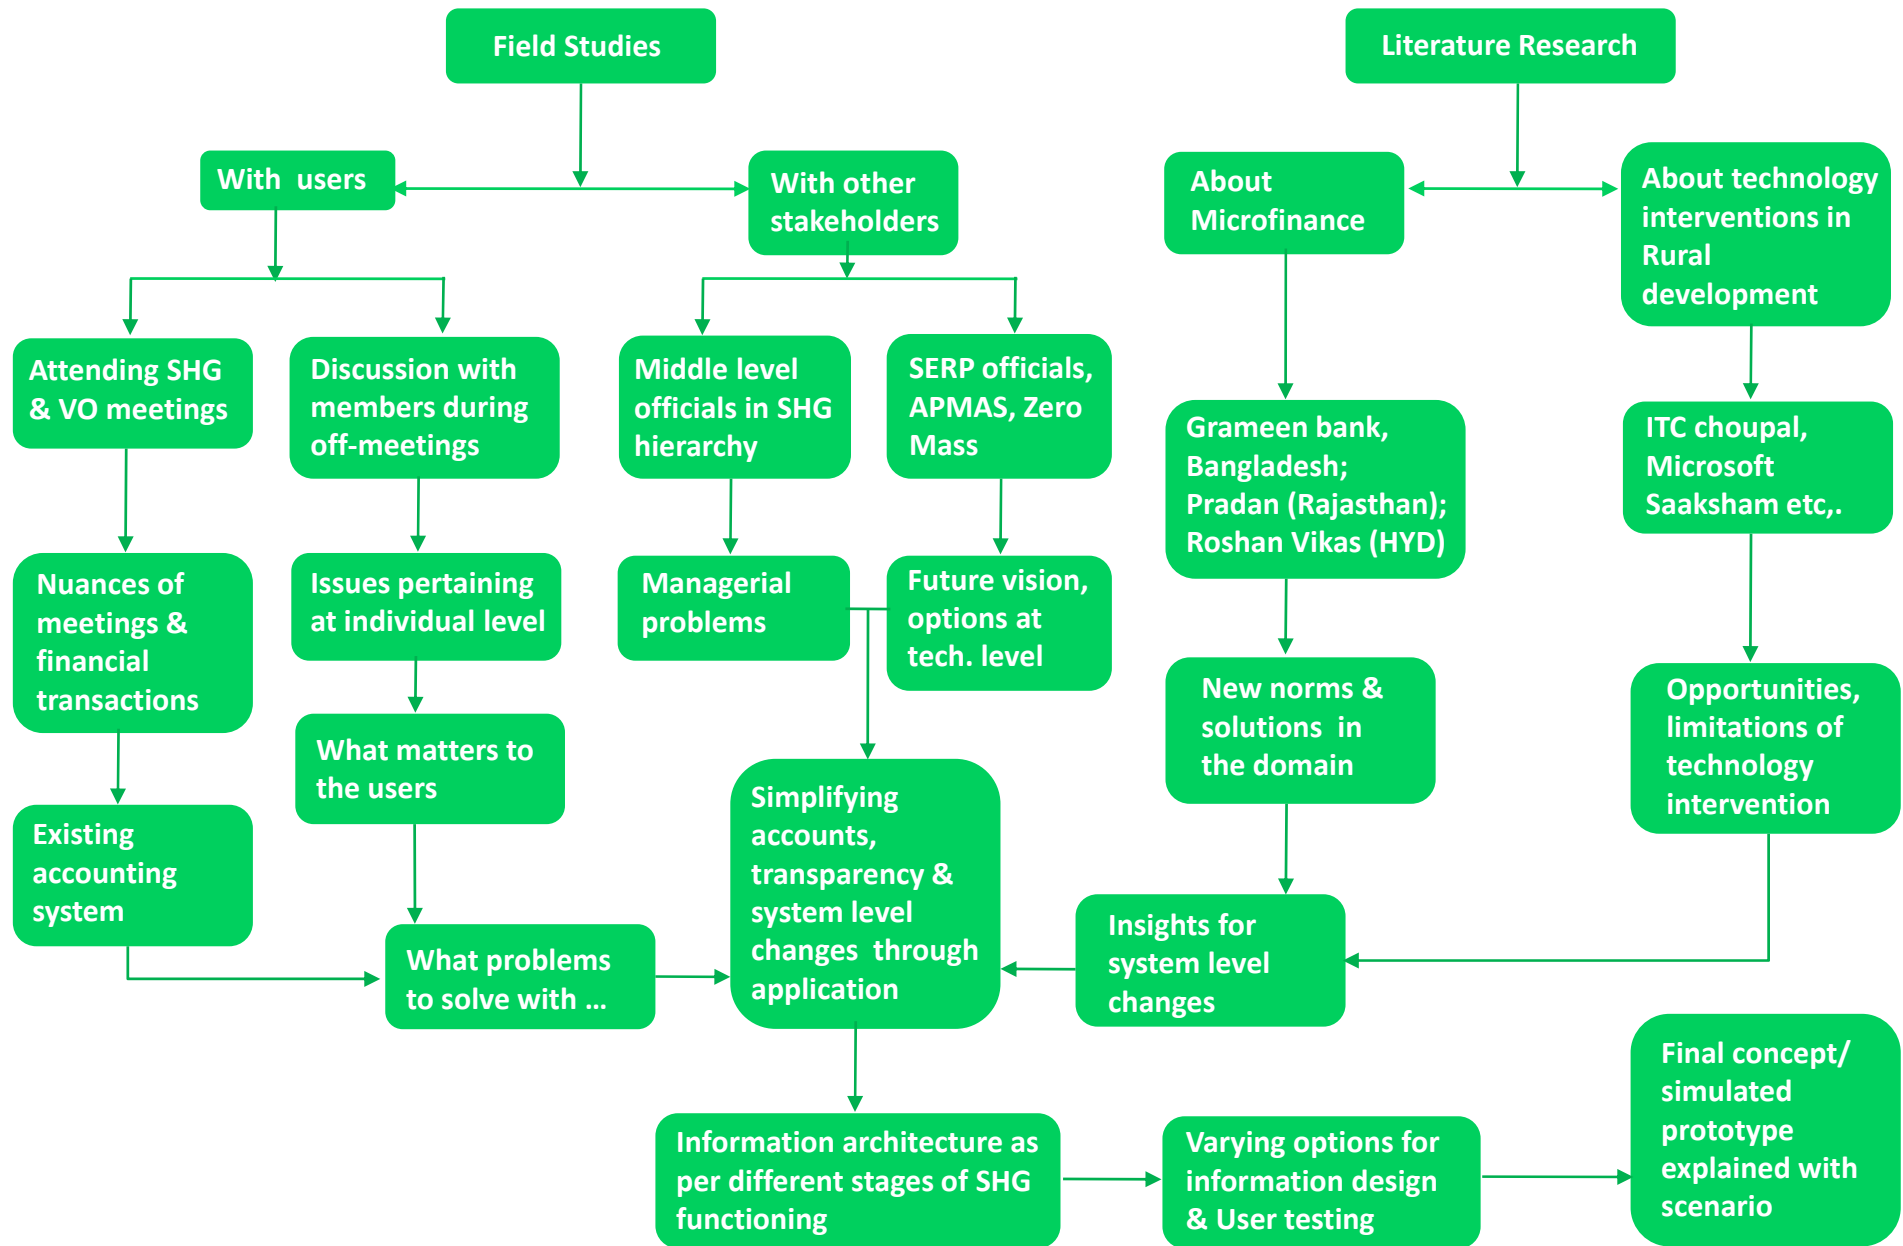

Velugu anthem and spirit of self help & mutual trust in completely unknown societies of own land.

### Anthem

Let confidence be instilled  
In life that there is light  
Let heavens descend,  
Wherever it is, to earth bright .....

# Methodology

## Micro finance - Self Help Group

### For people in poverty

Lack of proper financial access is the major problem.

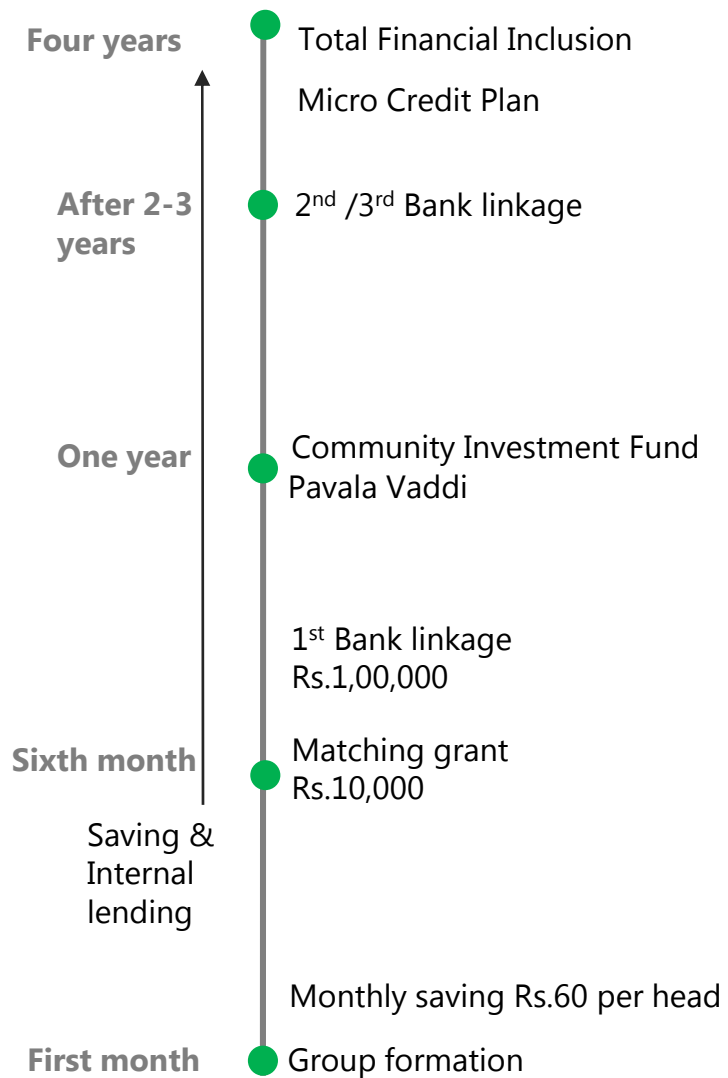

Banking as individual is not possible.

**Banking as group became a viable option and hence Self Help Groups emerged**

Thrift saving and money rotation in group enhanced the financial access in times of needy.

The Bangladesh model got emulated in AP right from 1995 and continued under successive state governments as a strong movement with women at it's core.

## SHG Formation & Growth

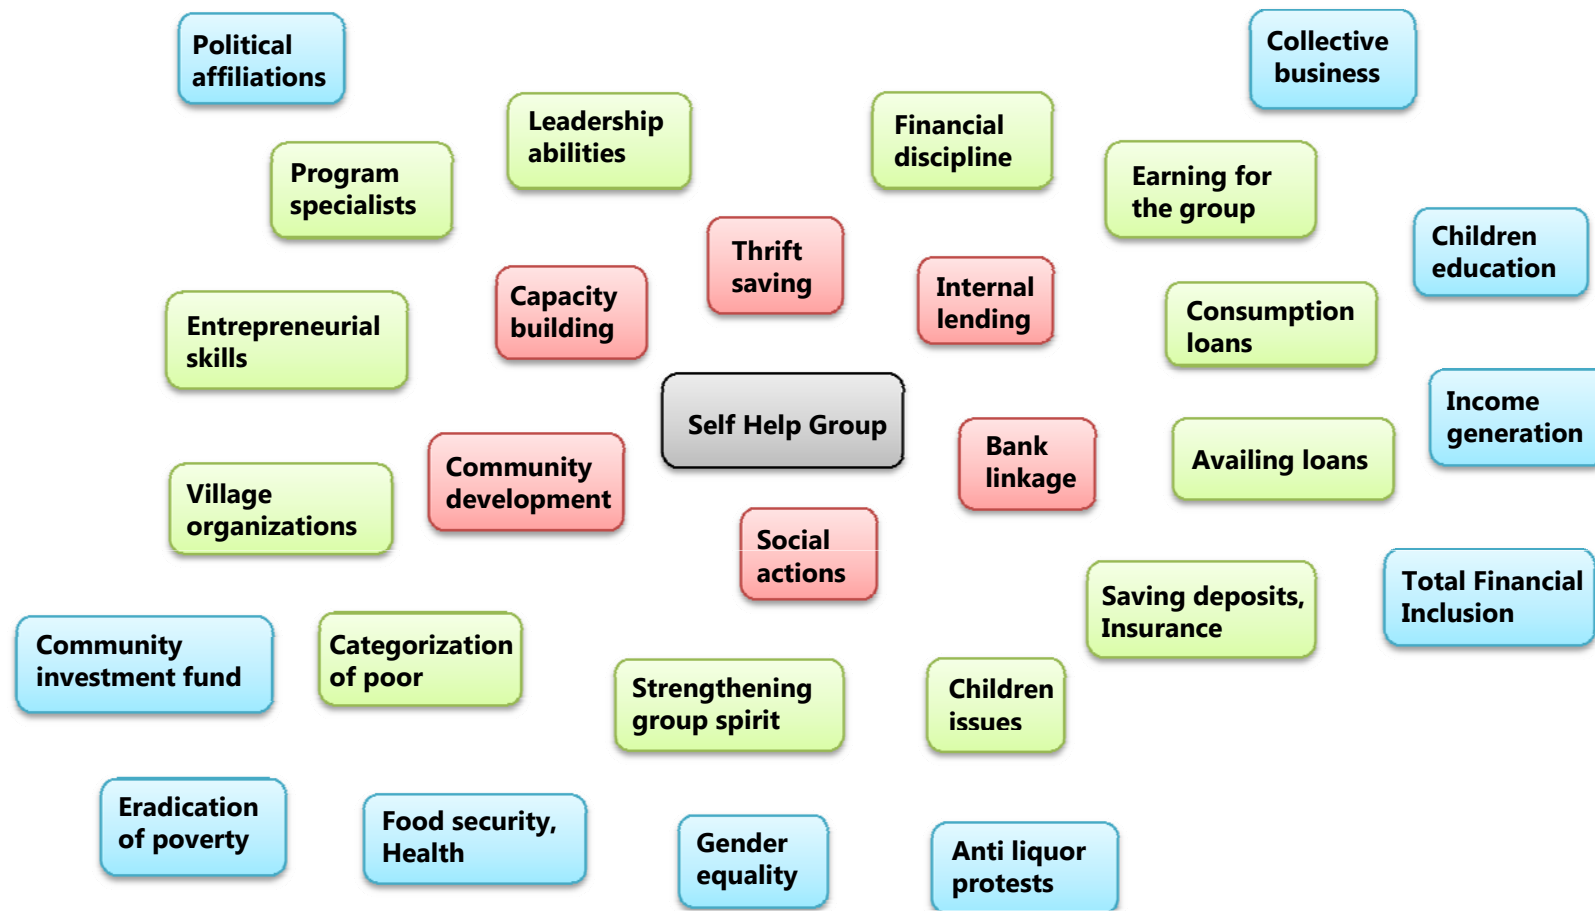

The functioning of SHG becomes complex and diversity increases over the period of time.

Major chunk of funds are allocated towards livelihoods promotion.

Scope of SHGs start entering into Social, political and cultural aspects of village life.

## SHG scope expansion

## SHG administration hierarchy

State level authority over  
9,00,000 groups (1.2 crore  
women members)

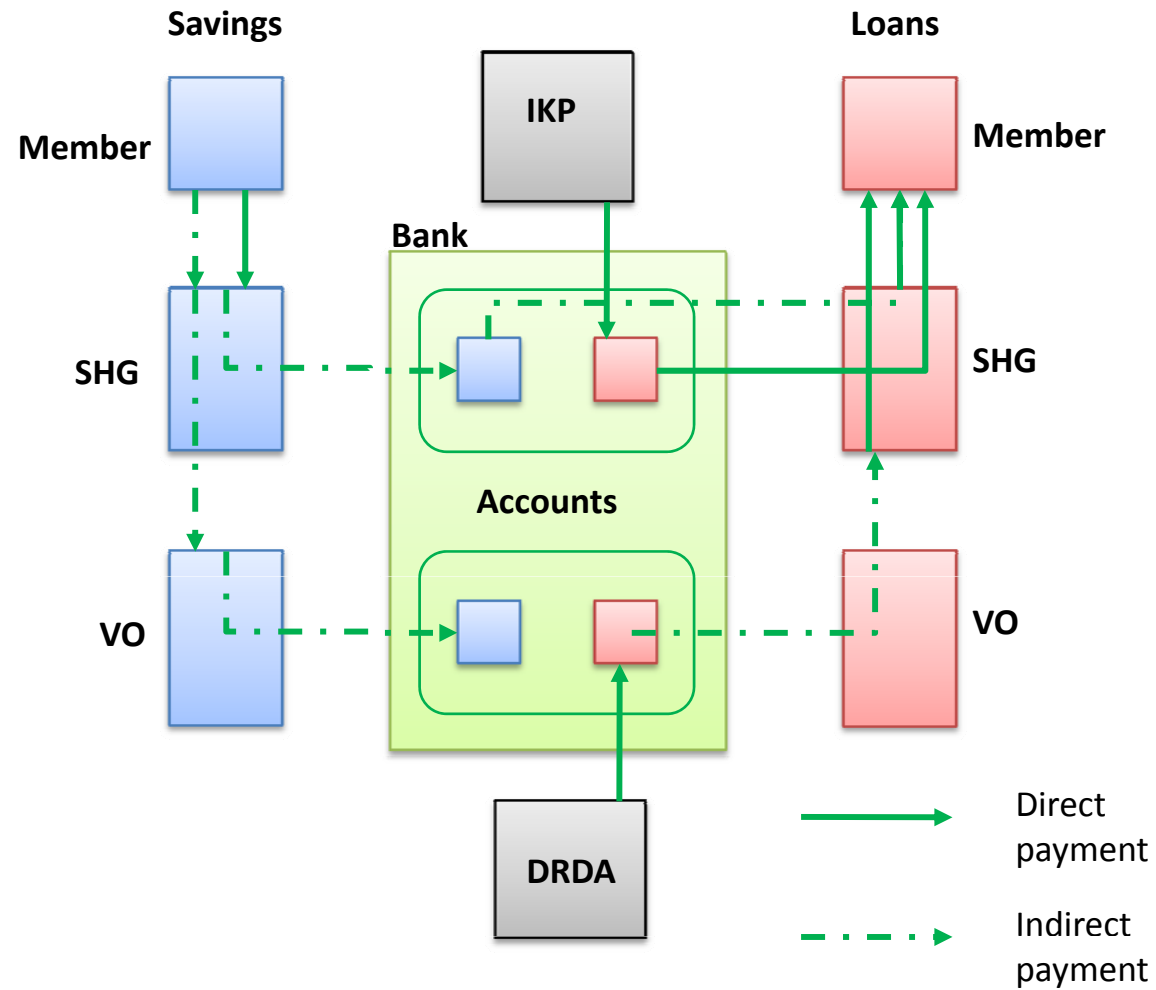

2,00,000 – 4,00,000  
members per Zilla  
Samakhya

4000 – 6000 members per  
Mandal Samakhya

300 – 500 members per  
Village Organization

10 -15 members per  
Self Help Group

## Money flow in the system

Two points of saving

1. With Bank
2. With VO

Three points of taking loans

1. SHG Internal lending
2. Bank linkage
3. From VO

## Field study

The functioning methods of SHGs differ from district to district and hence monthly meetings of two groups with diverse demographics were attended.

Group A,  
Kandi village,  
Sangareddy mandal, Medak district.  
70km west from Hyderabad.

Group B,  
Korutla village,  
Chandampeta mandal, Nalgonda district.  
150km east from Hyderabad.

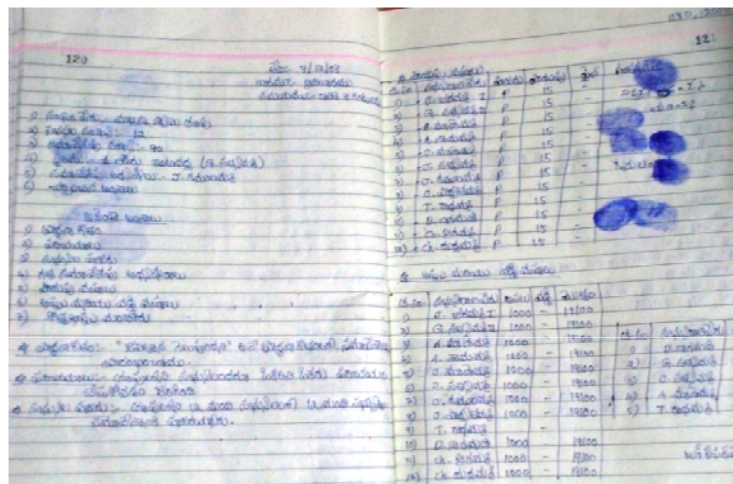

# Field study

## Group A

All transactions, discussions are recorded in five common books of group.

- 1) Minutes book.
- 2) Savings & Attendance book
- 3) General ledger
- 4) Loan ledger
- 5) Deposits & Payments book

And an individual pass book for every member

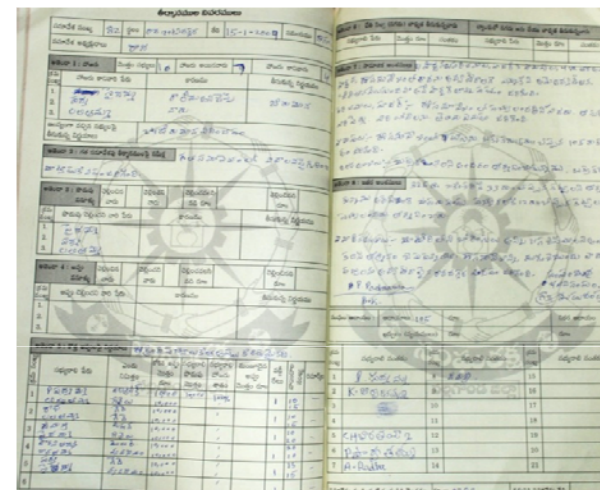

The image shows a handwritten ledger page for Group A. The page is divided into two main sections. The left section contains a list of members' names and their corresponding savings and attendance records. The right section contains a table with columns for 'Date', 'Particulars', 'Debit', and 'Credit'. The table is filled with handwritten entries, including dates and amounts. The page is numbered '129' in the top left corner.

## Group B

This group still follows the old system comprises of

- 1) Book of resolutions
- 2) Loan ledger

Plus an individual pass book for every member

The image shows a handwritten ledger page for Group B. The page is divided into two main sections. The left section contains a list of members' names and their corresponding savings and attendance records. The right section contains a table with columns for 'Date', 'Particulars', 'Debit', and 'Credit'. The table is filled with handwritten entries, including dates and amounts. The page is numbered '129' in the top left corner.

# Group A

**Minutes book**

**Minutes page**

**Accounts page**

**Weekly Saving attendance table**

**Group details**

**Repetitive writing for every week**

**Repetitive writing of names**

**Agenda**

**Just a list of regular tasks than any clear agenda**

**Tasks done in the meeting**

**Signatures taken against savings are to be considered for all resolutions taken during meet.**

**No amount is collected in weekly meetings and yet data is entered as Rs.15 per week.**

**For Internal loans, only interest is paid but not the principal. (More bullet payments)**

**Names Attendance Saving Fine Signature**

**Bank loan repayment**

**SHG internal loan repayment**

**Members pay only principal and pay entire interest at the end. (Not economical)**

**No where mentioned about the interest paid**

**Towards principal Interest Still to pay**

**Towards principal Interest**

**Anthem**

**Introductions**

**Attendance**

**New resolutions are very rare, if happens, that is only about new loans than any socio cultural issues.**

Names have been covered to protect the privacy of users

Group A

## Loan Ledger

### Individual's loan details

This book is never updated as all loan details are updated member's passbook. & minutes book.

Member's name

**లోన్ లెడ్జరు**  
**వ్యక్తిగత లోను వివరాలు**  
**చిన్న అప్పులు (CONSUMPTION LOANS)**

Members take small/big amounts for consumption in frequent manner, but this table does not have provision for identifying different loans and their installments.

Updating this book is a task should not be skipped because this is the only table which displays the repayment pattern of members along with due amounts. Minutes book does not mention about over dues members left with.

↑	↑	↑	↑	↑	↑	↑	↑	↑	↑	↑
Date – Loan given	Amount	No. of Installments	Need For loan	Repayment due date	Repayment due (Principal + Interest	Repayment date	Amount paid (P+I)	Over due	Loan balance	Member's signature

## Group A

## Individual passbook

### Consumption loans – Small amounts (Mostly internal lending)

### Income generation loans (Bank linkage)

[illegible]

## EMI calculation as per diminishing balance

EMI No.	INTEREST COMPONENT	PRINCIPAL COMPONENT	MONTHLY EMI	OUTSTANDING RS.
0	Rs.	Rs.	Rs.	28,100.00
1	327.83	787.69	1,115.52	27,312.31
2	318.64	796.88	1,115.52	26,515.43

20	133.62	981.90	1,115.52	10,471.62
21	122.17	993.36	1,115.52	9,478.27
22	110.58	1,004.94	1,115.52	8,473.32
23	98.86	1,016.67	1,115.52	7,456.65
24	86.99	1,028.53	1,115.52	6,428.13
25	74.99	1,040.53	1,115.52	5,387.60
26	62.86	1,052.67	1,115.52	4,334.93
27	50.57	1,064.95	1,115.52	3,269.98
28	38.15	1,077.37	1,115.52	2,192.60
29	25.58	1,089.94	1,115.52	1,102.66
30	12.86	1,102.66	1,115.52	0.00

# Group B

## Book of resolutions

Meeting details

Agenda 1: Attendance

Agenda 2: Discussion on previous resolution

Agenda 3: Savings

Loan repayments

Decision about new loans

This format appears to club all transactions in a more organized format under resolutions title in a single book.

Members taking responsibility of depositing in bank and for cash in hand

Social activities

Other matters

Group's revenue & spending

Members' signatures

Total group amount received at meeting

## Issues came out during personal interactions

*We don't know how much we are paying, what for we are paying, how much is interest, how much is for loan ..... ?  
Neither leaders are telling us, nor book keepers*

*Why don't they (leaders & their friendly members) give loans to us?  
Why do they only consume them among themselves?*

*Many instances of leader deceiving members by  
not giving interest over saving and loans etc.*

## Path towards real progress

- *Simplifying the account maintenance and therefore enhancing group's freedom.*
  - 1) Total group account
  - 2) Individual account
  - 3) Ledger wise visualization for higher authorities
- *Making every member aware of her financial situation.*

Financial statement at the start/end of meeting.
- *Reducing dependency over leaders.*

Information open for all members to view.  
Provision to enter/edit accounts should be made with both member and group leader.
- *Information dissemination regarding available opportunities.*

Message directly to group / member.
- *Encouraging productive investment.*

Tracking the Micro credit plan and related spending.
- *Motivating the members to perform better*

Comparing between the groups & members in terms of Saving, loans, repayments etc

## Which technology to use ...

1. Handheld device for every group and with a smart card for every member

- To register

- To identify

- To print etc... all at one go

2. Laptop for every VO to be shared across groups.

- To record transactions in detail

- To develop interactions among groups

## Which technology to use ...

3. Through a paid accountant at Mandal level by regularly obtaining groups accounts through posts.

To use the existing IT infrastructure

To generate employment

4. Shared mobile per group with extended individual/networked access & a finger printer

To replicate the existing passbook system

To utilize the existing penetration of mobiles in rural AP

To record and recognize the member's identity.

## Which technology to use ...

- Already few mobile based welfare schemes like Pension disbursement & NREGS are in place in AP villages.
- And it is also observed during the study that every group has at least one mobile under use either by leader or their close relatives.
- **Hence mobile based system is suggested to record the transactions of group meetings.**

*The system is named as Pragathi which means progress in Telugu, local language.*

## Pragathi at member level

Every women member will be given a locket which is fitted with microchip for her identification using RFID/NFC mechanism over mobile.

Each group to have a mobile coupled with finger printer for verifying the user's identity for enhanced security and to print receipts.

## Pragathi - The system architecture

Through computers at MS,  
ZS and State levels

Through same shared mobile  
phones of SHG leaders  
representing at VO level

Through a shared mobile phone for group  
and RFID/ NFC based personal micro chip for  
individual's identification.

# Ideation to represent information

Using photographs of village landmarks for easy memory

Less dependence on text

Icons with bright colours using the existing metaphors

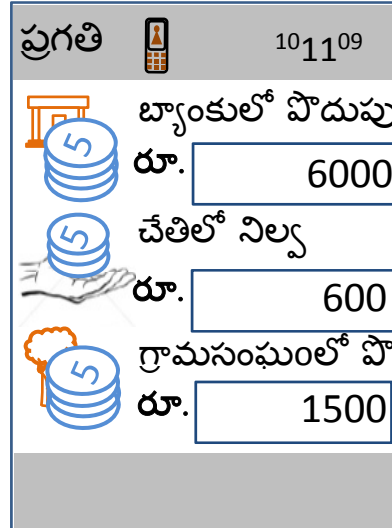

Supported by text and numbers

## Ideation to represent information

Leaf shapes with different  
Orientations and colours.

Colour & Orientation to  
denote the flow of money

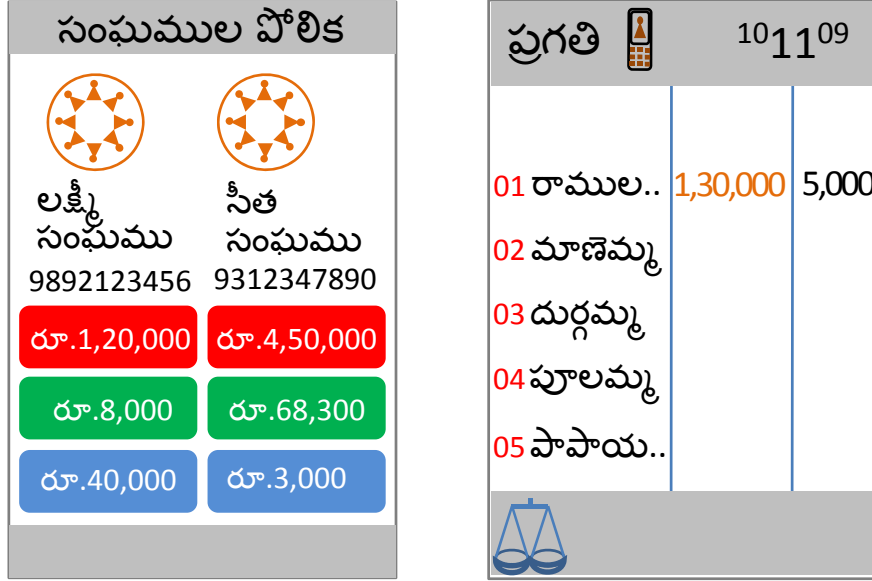

Banking on existing habits of users in arranging money  
and banks practice of colour differentiation between  
loans and savings.

# Ideation to represent information

## Ideation to represent information

Mobile screen size print outs were taken and tested with available Telugu speaking labour in IIT campus and near by Marble cutting shops.

Graphs were found unusable but users were able to identify icons over retention.

Usage of colour to differentiate the financial concepts also helped them to remember.

## Scenario 1 : Enrolment

Akkamma, Madamma and Bhanumathi of Kalivemula village have formed a group Durgabai Sangham and have informed Suresh of IKP for enrolment.

Suresh attends the first meeting of the group to enroll into Pragathi.

He informs IKP server about the assigned mobile number for the group.

The mobile receives the Pragathi application online and Suresh gets started with the enrolment.

## Scenario 1 : Enrolment

Opening the application

Only enrolment option is active during the first interaction

First screen shows basic details to be entered

## Scenario 1 : Enrolment

Recording Group name and Leaders' names

Entering Number of members, Monthly saving

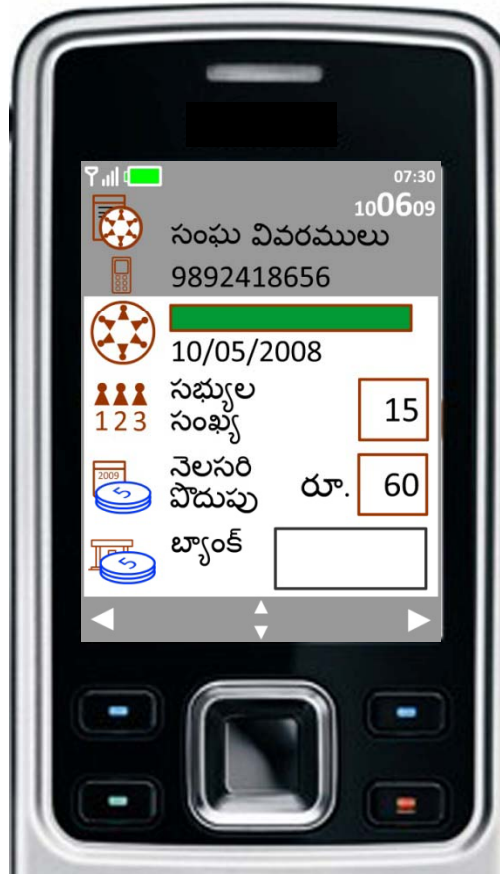

Enrolling members names by recording and registering with NFC & Finger print

## Scenario 1 : Enrolment

Enrolment of the members and these details will be entered by IKP server side in a week.

After the enrolment is done, screen shows the basic details and can only be activated after receiving Bank's account number.

Bank awards the account number in a week and these details will be shown as first screen for the application.

## Scenario 2 : Group meeting

Alivelu group of Kanipakam village have been an active group from last 5 years. It is a 12 member group and have taken several loans from Bank and VO before.

Recently they got enrolled into the Pragathi system and this is how their group meeting happens.

## Scenario 2 : Group meeting

Group's details
