Check for the Branding

Apart from the product designs, our packages must also be perceived as safe, trustworthy and reliable. With that in mind, we wrote down what all we must consider for branding.

- options of colors provided for them to choose from
- company logo
- standard design for everything with our logo/ our colors
- all products must be similar in design
- safe and trustworthy design

Idea Clusters

We studied and noted existing products that we can use in our kit like pocket sanitizers etc. We also looked at what textures and colours we could use so as to convey reliability and safety.
