Introduction

The international conference 'Designing for Children 2021' Mumbai, India with focus on 'Play and Learn' was held online from 28th - 30th, January 2021 and was being hosted online by the IDC School of Design (IDC), Indian Institute of Technology (IIT) Bombay, Mumbai with support from India Design Association (InDeAs) and DesignIndia.

This international event was aimed at deliberations and discussions concerning design issues related to children. The event was expected to throw light on the role of designing for children as related to design of objects, media and environment with focus on 'play and learn'.

The events were centered around the interests of students, educationists, practicing designers and children related interest groups. The event had been designed to be lively, interactive and thought provoking and will provide an excellent opportunity to interact with thought leaders and listen to visions by researchers.

The Major Events:

- Design Workshops
- Design Education Meet
- International Design Conference
- Exhibition and Project Demo

Here you can find the selected final juried Posters for the conference 'Designing for Children 2021' with the focus on 'play and learn'.
